Pam A. Morgan **Director of Operations**

to EDGE was

seamless and they took the time to assess our needs and provide the best solution for our company!

Academy Orthopedics L.L.C. has been serving the community of Northeast Georgia for over 25 years. Dr. Jesse Seidman, Dr. Jonathan Katz, and Dr. James Duckett strive for excellence, offering both non-surgical and surgical expertise in orthopedic care. With three clinic locations in Cumming, Buford and Duluth, as well as hospital privileges at Northside Forsyth and Duluth Hospitals, patients' individual needs are met in a welcoming and personalized environment. Pam Morgan has been with Academy for 29 years is the Director of Operations and oversees the daily operations of their 3 offices.

As the Director of Operations, it is my responsibility to make sure our offices have the office technology needed to make our office run smoothly. I was not happy with our previous vendor and was looking for a way to get out of our current lease.

I was already looking at several other companies when Josh stopped by the office one day...talk about great timing...and he took the time to ask the right questions and present me with the best office technology solution.

The transition from our previous vendor to EDGE was seamless thanks to the time Josh took to ensure we got the right equipment. He took the time to listen and explain the various options. Josh was very patient and helpful. Not only was he able to get us out of our current lease, but we got state-of-the art office equipment that makes conducting business easier than ever before.

Although we are a relatively new EDGE customer, I already feel like we have forged a great partnership with Josh Salkin, EDGE Partner, and the entire EDGE team.

I would absolutely recommend EDGE Business Systems to other companies. Not only are their products great, but their industry knowledge and customer service are excellent as well.
